

**Joint Meeting on “Computational Intelligence” with Prof. James Bezdek, IEEE Fellow
3rd and 7th of September 2016**

We have the pleasure to announce that the IEEE Fellow *Prof. James Bezdek* will be our guest within the “Distinguished Lecturer” program of IEEE Computational Intelligence Society in the beginning of this September. He will deliver a cycle of two talks entitled:

- 1. How big is too big? (Mostly) c-Means Clustering in Big Data.*
- 2. Anomaly Detection in Wireless Sensor Networks: Visual Assessment and Clustering for Environmental Monitoring.*

He visits Bulgaria at the invitation of IEEE Young Professionals Affinity Group of Bulgaria and IEEE Computational Intelligence Chapter of Bulgaria with the support of IEEE Computational Intelligence Society.

The talks are scheduled for 3rd and 7th of September 2016!

A preliminary **REGISTRATION** is now **OPEN** for everyone who wants to stay tuned about the announcement of the exact locations and hours of the talks.

THE ATTENDANCE OF BOTH LECTURES IS FREE OF CHARGE AND UPON REGISTRATION!
